

Tianci Product

Horizontal mixer

 **Tianci**
fertilizerexpert@gmail.com

Working principle of horizontal mixer: horizontal cylinder body is equipped with biaxial reverse rotating blades. With a certain angle, the blade can mix the materials uniformly. It features high mixing uniformity and less residue, which is suitable for mixing two or more fertilizer and auxiliary material.

Introduction:

Horizontal Mixer is a new kind of mixing equipment, with high mixing uniformity and low residual quantity. It is used for compound feed, concentrated feed and additive premix.

Advantages:

- 1) Mix material fully in order to enhance mixing uniformity.
- 2) Adopt neoteric rotor structure, minimum clearance between the rotor and the body of the machine can be approaching to zero, which reducing the amount of residue.
- 3) Pipelines with grease are equipped with the machine body, with more reasonable structure, nice appearance and easy operating maintenance.

Specification:

Model	Prod capacity(t/h)	Power(kw)
600×1200	2-3	5.5
700×1500	3-5	7.5
900×1500	4-8	11
1000×2000	8-10	15

Zhengzhou Tianci Heavy Industry Machinery Co.,Ltd

is agricultural technology developed institute pointed production unite of soil fertilizer station in Henan province agricultural department, main products are 100,000-200,000 tons compound fertilizer and mixed fertilizer production line, BB fertilize equipment(no dry, squeezed once forming equipment),chicken dung and high wet material drying fermentation equipment, organic fertilizer equipment, roller squeezing granulation machine, for organic, inorganic biological fertilizer factory, garbage, sewage handling factory, and make the first of the organic waste harmless handling.Developing the multi-functional completed set of compound fertilizer equipment, compact structure, covering less, reliable,low dust and so on.

We own strong technical force, high-quality workforce and CAD design center has been committed to the development of high, medium and low compound fertilizer and mixing fertilizer equipment production and development for new and old customers with process design, fabrication and installation of equipment debugging, formula.One-stop comprehensive service and products cover throughout the country, some products have been supporting exports.

Enterprise purpose: adhere to market-oriented, innovation and development, quality of survival to the consummation post-sale service won the majority of users praise, all clients are warmly welcomed to visit our company for business.
